# VOLUME IV

## INDEX OF SUBJECTS AND AUTHORS

*Only main topics are listed, and reference is given to the first page of each paper in which they are discussed.*

Age-effect on non-disjunction, in *Drosophila*, 284
Allelism of 'Opposum' and 'Ragged' in mouse, 1
Allometry of body weight and shank length, in fowl, 167
Anaphylactoid reaction in rat, 346
Apirion, D., 276
Ashton, G. C., 240
*Aspergillus nidulans*
  genetics of ascospore colour in, 276
  micro-colonial growth of, 320
  polarized negative interference in, 12
  replica plating of micro-colonies of, 320

Beale, G. H., 42
Berry, R. J., 193
Binomial, heterogeneity in distribution, 455
Blight, resistance to, in cotton, 382
Blood transfusion, lack of heritable changes following, in poultry, 221
Body weight and growth, in fowl, 167
Bonner, D. M., 470
Bristle number, test of coadaptation, in *Drosophila*, 104
Broda, P. M. A., 483
Bulten, E. J., 305

Cellular damage after multiple mating, in *Escherichia coli*, 463
Chicken, see Poultry
Chromosome
  breakage by X-rays, in *Drosophila*, 248, 446, 485
  Colicin factor location, in *Escherichia coli*, 162
  distribution in interspecific crosses, 266
  inactive-X theory of dosage compensation, 93
  mobilization by F-prime factor, in *Escherichia coli*, 328
  origin of repeats, in *Drosophila*, 154
Cleft palate induced by teratogen, in mouse, 258
Clowes, R. C., 162
Coadaptation, lack of, in *Drosophila* crosses, 104
Cock, A. G., 167
Cohen, L. W., 143
Colicin factors, transfer of, in *Escherichia coli*, 162
Combining abilities, non-additive model of, 65
Computation of heterogeneity in binomial distribution, 455
Conjugation in *Escherichia coli*, 30
*Coprinus lagopus*
  mating type mutants in, 55
  structure of mating type factors in, 323
Correlation between development time and growth, in *Drosophila*, 74
Cotton, bacterial blight resistance in, 382
Crawford, R. D., 370
Crow, J. F., 299
Culture medium for replica plating micro-colonies of *Aspergillus*, 320
Cytoplasmic modification of responses to teratogen, in mouse, 258

Dawson, G. W. P., 416, 427
Day, P. R., 55, 323
de Haan, P. G., 30, 305
Development, relation between larval period and growth, in *Drosophila*, 74
Dosage compensation, inactive-X theory of, 93
Doolittle, D. P., 290
Drift of gene frequencies in mating systems, 399
*Drosophila melanogaster*
  ecological genetics of growth in, 74
  inheritance of lymph proteins in, 441
  mutagenic effects of X-rays and formaldehyde on, 248
  non-disjuction in, 284
  origin of chromosomal repeats in, 154
  radiosensitivity of spermatogonia in, 446
  selection using assortative mating in, 356
  X-ray induced translocations in, 485
*Drosophila subobscura*, lack of coadaptation in crosses of, 194
Duke, E. J., 441

Edwards, R. G., 389
Environment
  effect of diet on development time, in *Drosophila*, 74

Environment—*continued*
effect of media on recombinant formation, in *Escherichia coli*, 457
interactions with, in poultry, 370
nutritional requirements of two *Drosophila* spp., 104
Epigenetic polymorphisms in wild mouse populations, 193
Episome
and Colicin factors, in *Escherichia coli*, 162
curing by acridine orange, in *Escherichia coli*, 305
transfer, in *Escherichia coli*, 30, 480
*Escherichia coli*
chromosome mobilization by F-prime factor in, 328
effect of media on recombinant formation in, 457
F-curing by acridine orange in, 305
modification by phage P1 in, 480
multiple mating in, 463
phage T3 restriction in, 483
transfer of
colicin factors in, 162
F-prime factors in, 30

Ferguson, K. A., 240
Fitness, effect of homozygosity on, 318
Formaldehyde-induced mutants, in *Drosophila*, 248
Fowl, see Poultry
F-particles, in *Escherichia coli*
chromosome mobilization by, 305
distribution of, 30, 305
multiplication of, 305
numbers per cell of, 30, 305
transfer of, 30
Fraser, F. C., 258

Gene frequency
drift of, in mating systems, 399
of transferrin alleles in sheep, 240
Genetic determinations of responses to teratogen, in mouse, 258
Genetic model of non-additive combining ability, 65
Genetic parameters of poultry control population, 290
Genetic variance
effect of disruptive selection on, 318
interactions affecting, in poultry, 370
Geographical races of *Drosophila*, differences between, 104
Gibson, I., 42
Gilbert, N., 65
Glover, S. W., 480, 483
Godfrey, J., 21
Goldstein, M., 258
Gowe, R. S., 370
Gross, J. D., 328, 457, 463
Growth
allometry of, in fowl, 167
ecological genetics of, in *Drosophila*, 74

Hair
density in mouse mutant, 1, 326
development and morphology of, in mouse mutant, 1
Harris, J. M., 346
Heritable changes, lack of, after blood transfusions in poultry, 221
Heterogeneity
computation of, in binomial sampling, 455
in radiosensitivity of spermatogonia, in *Drosophila*, 446
Heterozygosity, minimum decrease of, in mating systems, 399
Histocompatibility, effect of irradiation on, in mouse, 21
Homozygosity, effect on fitness of, 318
Hull, P., 370
Hybrids, chromosome distribution in interspecific, 266

Inbred strain, subline divergence of, in rat, 346
Inbreeding
during selection, in *Drosophila*, 356
effects of, on two *Drosophila* spp., 104
maximum avoidance of, 399
Innes, N. L., 382
Interaction
genic, affecting blight resistance in cotton, 382
genotype-environment, in poultry, 370
Interference, polarized negative, in *Aspergillus*, 12
Irradiation
effect on histocompatibility mutants, in mouse, 21
induced mutants during spermatogenesis, in *Drosophila*, 248
sensitivity to
of meiotic stages, in mouse, 389
of spermatogonia, in *Drosophila*, 446, 485

Jackson, H., 333

Kalmus, H., 346
Kaplan, S., 470
Kato, M., 221
Kelsall, P., 284

Kimura, M., 399
King, S. C., 290
Kosin, I. L., 221

Lethality after multiple mating, in *Escherichia coli*, 463
Lethals induced by irradiation, in mouse, 389
Linkage of
  colour mutants in *Aspergillus*, 276
  *leu-ara B* region in *Salmonella*, 427
  'Striated' in mouse, 151
Lyon, M. F., 93

McBride, G., 356
McCarthy, J. C., 485
McFarquhar, A. M., 104
Mackintosh, M. E., 320
Mann, S. J., 1
Maternal effects in poultry, 290
Mating, effect of multiple, in *Escherichia coli*, 463
Mating systems, maximum avoidance of inbreeding in, 399
Mate-killer (mu) particles in *Paramecium*
  effect of ribonuclease and 8-azaguanine on, 42
  models for distribution of, 158
Mating type factors in *Coprinus*, 55, 323
Mating types in *Paramecium bursaria*, 132
Mating type substances in *Paramecium*, 143
Meiosis
  chromosome distribution following, in interspecific hybrids, 266
  non-disjuction during, in *Drosophila*, 284
  radiosensitivity of stages of, in mouse, 389
Metagons in *Paramecium*
  chemical nature of, 42
  models for distribution of, 158
Model for
  non-additive combining ability, 65
  transduction experiments, 416, 427
Mouse
  hair density in mutants, 1, 326
  inactive-X theory of dosage compensation in, 93
  organ specificity of responses to teratogen in, 258
  polymorphism in wild populations of, 193
  radiosensitivity of meiotic stages in, 389
  search for histocompatibility mutants in, 21
  'Striated', dominant sex-linked coat texture mutant in, 151
Mu particles in *Paramecium*
  effect of ribonuclease and 8-azaguanine on, 42
  models for distribution of, 158
Multisite mutants in *Neurospora*, 470
Mutants
  blight resistance, recessive, in cotton, 382
  colour, in *Aspergillus*, 276
  CRM negative at *td* locus in *Neurospora*, 470
  histocompatibility, search for, in mouse, 21
  lymph-protein, in *Drosophila*, 441
  mating type, in *Coprinus*, 55
  'Oppossum', dominant hair shedding, in mouse, 1
  prevention of anaphylactoid reaction, recessive, in rat, 346
  'Ragged', dominant hair shedding, in mouse, 1, 326
  'Striated', dominant sex-linked coat texture, in mouse, 151
Mutation
  chromosome breaks in *Drosophila*, 154
  induced by
    alkane sulphonates, in rat, 333
    formaldehyde, in *Drosophila*, 248
    irradiation
      in *Drosophila*, 248
      in mouse, 389

Nafei, H., 485
*Neurospora crassa*, CRM negative mutants at *td* locus in, 470
*Nicotiana* spp., chromosome distribution in crosses between, 266
Non-disjunction in *Drosophila*, 284

Pantelouris, E. M., 441
*Paramecium aurelia*, metagons in
  chemical nature of, 42
  models for distribution of, 158
*Paramecium bursaria*
  mating types in, 132
    mating type substances of, 143
Partington, M., 333
Perithecium, determination of phenotype of, in *Aspergillus*, 276
Phage
  host induced modification by P1, 480
  T3 restriction in *Escherichia coli*, 483
Phillips, R. J. S., 151
Pinsky, M. F., 258
Plasmids, Colicin factors in *Escherichia coli*, 162
Polymorphism of
  skeleton in wild mouse populations, 193
  transferrins in sheep, 240
Population
  effective size of, in *Drisophila*, 356
  genetic stability of control, in poultry, 290
  polymorphism in wild mouse, 193

Poultry
genetic stability of control populations in, 290
genotype-environment interactions in, 370
growth and form in, 167
heredity and blood transfusion in, 221
Pritchard, R. H., 320
Probability distribution of chromosomes in interspecific hybrids, 266
Proteins, lymph, inheritance of, in *Drosophila*, 441
Putrament, A., 12

Rat
anaphylactoid reaction in, 346
induced mutation by alkane sulphonates in, 333
Reciprocal differences in responses to teratogen, in mouse, 258
Recombination
effect of media on, in *Escherichia coli*, 457
frequencies in transduction experiments, 416
of multisite mutants, in *Neurospora*, 470
Reeve, E. C. R., 158
Regression lines, significance test for concurrence of, 167
Reversion of multisite mutants, in *Neurospora*, 470
Robertson, A., 356
Robertson, F. W., 74, 104
Ross, G. J. S., 158

*Salmonella typhimurium*, transduction in, 416, 427
Saunders, J. H., 382
Scaife, J., 328
Schell, J., 480, 483
Searle, A. G., 21, 389
Selection
disruptive, effects of, 318
for development time and growth, in *Drosophila*, 74
using assortative mating, in *Drosophila*, 356
Serum transferrins in sheep, 240
Sficas, A. G., 266
Shank length and growth, in fowl, 167
Sheep, serum transferrins in, 240
Siddiqi, O. H., 12
Siegel, R. W., 132, 143
Significance test for concurrence of regression lines, 167
Skeletal variants in wild mouse populations, 193
Skin-grafts, in test for histocompatability mutants, in mouse, 21
Slee, J., 326
Slen, S. B., 370
Slizynska, H., 154, 248, 446
Smith-Keary, P. F., 427
Spermatogenesis, sensitivity to
alkane sulphonates, in rat, 333
X-rays, in *Drosophila*, 248, 446, 485
Stacey, K. A., 480, 483
Stouthamer, A. H., 30, 305
Suyama, Y., 470
Symonds, N., 480, 483

Technique for replica plating micro-colonies of *Aspergillus*, 320
Teratogen, organ specificity of responses to, in mouse, 258
Thoday, J. M., 318
Transduction
analysis, in *Salmonella*, 427
interpretation of experiments on, in *Salmonella*, 416
Translocations
induced by X-rays, in *Drosophila*, 485
in test of inactive-X theory, in mouse, 93
Transferrins in sheep, 240

van Vleck, L. D., 290
Vertebral fusion induced by teratogen, in mouse, 258
Viability of 'Striated' mutant in mouse, 151

West, G. B., 346
Woolf, B., 455

*Xanthomonas malvacearum*, resistance to, in cotton, 382
